## ABOUT ME

Hi, my name is Vladimir Todorovic, a graduated graphic designer, I live and work in Belgrade.  
Previously I worked logos, corporate materials, and prepress for digital printing, until I got into web design and coding.  
Now I am deeply involved in building frontend's of web applications. I am dedicated to resolve the issue of user applications, and to created better one.

## WORK EXPERIENCE

### UPWORK

Frontend developer, UI designer , September 2016 - Current

<https://www.upwork.com/o/profiles/users/~0105fab96d0924a21b/>

### SET plus plus d.o.o.

Web Designer, Jun 2015 - Present (11 months)

Redesign of the Information System SIMA, from the zero point. Also coding html and css templates for various pages.

SIMA is an information system developed as an internal need of construction company SET d.o.o. The project itself has expanded far more than expected and has grown its expectations.

IS SIMA relies on two grounds. One has decades of experience in the business management of private and public companies, while others are contemporary and above all open technologies.
